Forecast for Saturday 12 Nov 2022

Weather: A cloudy night with mist and fog patches developing, broken low cloud too despite the breezy conditions. A cloudy start to the day but some brighter spells soon developing through the morning. A sunny afternoon is expected. Possibly some mist and low cloud reforming later in the evening.

Chance of cloud-free hill tops above 600m: 50% gradually improving to 90% as cloud clears, deteriorating to 40% again later.

Low cloud and visibility: Broken low cloud layers early in the day above 400m, low cloud will gradually lift and clear by late morning with good views expected during the afternoon. The visibility will be poor around dawn but will also improve to very good in the afternoon. Low cloud reforming at dusk with cloud possibly thick enough to give some drizzle at times.

Meteorologist's View

Fresh breezes during the morning but strengthening again in the afternoon with some strong gusts possible on the highest tops later. Mild November conditions continuing.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
15:00 on Fri 11 Nov 2022	0.6mm	2.8mm	31.4mm

Forecast for Sunday 13 Nov 2022

Weather: Early low cloud and mist around the hills will clear to leave a bright and sunny day, although some cloud lingering towards peaks north of Partrishow, perhaps increasing cloud in the evening especially further east towards Abergavenny.

Maximum wind: Southeasterly 20-25mph with gusts 30-35mph.

Chance of cloud-free hill tops above 600m: 40% improving to 80%, most low cloud clearing by late morning, although some possibly lingering around the east of the Brecon Beacons.

Low cloud and visibility: Scattered or broken layers of low cloud above 400m in the early morning with gradually lift and dissipate as the sunshine breaks through. Leaving good visibility for most of the afternoon, cloud layers likely to reform later in the evening.

Temperature: **Valleys:** Plus 10 rising to 17 Celsius.
At 600m: Plus 8 rising to 11 Celsius.
Freezing level: Above all summits.
